

To whom it May Concern, I do not believe that the wisconsin No-Call List policy should be tampered with or changed to reflect the less effective federal list. Wisconsin citizens like myself have truly enjoyed the freedom from unwanted and intrusive telemarketing phone calls. If any changes are to be made, please shorten the length of time a business and their subsidiaries have to contact citizens- eighteen months is a very long time to be harassed by companies we no longer want to do business with. Thank You, Wendy Sindberg
